# Writing & Learning Services

Our mission is to support students, staff, and faculty in the development of academic skills, including written and oral communication skills, self-management, time and project management, and studying. We serve as leaders to the University of Guelph community and provide a wide range of services, including group-based, individual, and peer mentoring programs.

## Areas of Expertise

### Writing

- Developing familiarity with academic writing expectations
- Applying strategies for outlining and composing essays, theses, papers, and chapters
- Recognizing and addressing issues of clarity, cohesion, and style
- Improving skills for planning and developing larger academic writing projects
- Synthesizing sources to properly support ideas and observations

### Studying and Time Management

- Learning through evidence-based strategies for exam preparation, note-taking, and reading
- Managing time, setting goals, and building strategies to enhance motivation and reduce procrastination
- Building academic resilience and coping with failure and stress

### English Language Support

- Applying strategies to address academic speaking, reading, listening, and writing tasks with confidence

### Presentations and Group Work

- Preparing and delivering academic presentations and thesis defenses
- Preparing and presenting academic posters
- Working effectively in groups

## Services and Programs for Students
